# *A Time for Decision*

SINCE being appointed Acting-President of the Board of Trustees, I have been forcibly impressed by two facts; the great complexity of St. Luke's Hospital and its unlimited potential for future development.

This institution is truly a world in itself, and its operation 24 hours a day throughout the year requires a blending of special skills representing many areas of human endeavor. Among these are medicine, nursing, business administration, social science, education, engineering, fund raising, home economics, pharmacy and public relations—all working together to produce the one product for which St. Luke's exists: the care and comfort of the patient.

It is inevitable in any institution of this size and complexity that some individual and group differences will appear. This seems to me a healthful indication of interest in St. Luke's Hospital, and means that all engaged in this joint effort are welcome to express themselves constructively.

This hospital, after all, belongs to no one man or group. It belongs to the community of mankind. Each individual must, therefore, take honest inventory of his own part in the total effort. Each of us should also examine the group of which he (or she) is a part to determine whether or not this group makes its best contribution to the total effort.

Unless we put the good of St. Luke's Hospital above our own narrow and selfish interests, we are not being true to the purpose for which this hospital exists: the best possible care to any who need it, regardless of race, color or creed.

We are now so situated that in order to progress, some extremely im-

portant decisions have to be made. This will take time. Decisions of this nature cannot be made without due consideration of all groups and factors involved. It will take patience, for we must not be impetuous and act without careful planning and painstaking preparation. It will take courage, for it means that we must redefine our basic philosophy in order to understand what we are trying to do.

I see no reason for undue pessimism. Our Medical Staff is second to none, and will, I am sure, retain its preeminent position by constant improvement in its members. Our Board of Trustees is of high-calibre, and is being constantly strengthened by the addition of new blood necessary to progressive leadership. Departments in the hospital are continuously being up-graded so that St. Luke's will not only retain but will strengthen its position in the community.

For these reasons, I have great faith in the future of St. Luke's Hospital, despite the fact that all sorts of unforeseen difficulties may lie ahead. I appeal to all my associates within the St. Luke's family to help in the tremendous challenge which lies before us, to help by having confidence in the continuing greatness of this institution. For it is only by such confidence plus trust in each other that St. Luke's can look forward to a future that will far eclipse any reputation it may have enjoyed in the past.

Indeed, we stop growing immediately the past becomes more interesting to us than the future. And I can assure you that as Acting-President of the Board of Trustees I will not let this happen.

JOHN P. BENT  
*Acting-President  
Board of Trustees*

## A Statement of Income and Expense— Operating Fund

FOR THE YEARS ENDED DECEMBER 31, 1953 AND 1952

	1953	1952	Increase (Decrease)

	<u>\$4,792,887</u>	<u>\$4,506,865</u>	<u>\$286,022</u>

## Auditors' Report

TO THE BOARD OF TRUSTEES,  
ST. LUKE'S HOSPITAL,  
CHICAGO, ILLINOIS:

We have examined the balance sheet of ST. LUKE'S HOSPITAL (an Illinois corporation organized not for profit) as of December 31, 1953, and the related statements of changes in fund balances and income and expense for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We had made a similar examination for the year ended December 31, 1952.

It is the policy of the hospital to make no provision for depreciation of hospital buildings or equipment. Equipment replacements are charged to expense when made. With this explanation, in our opinion, the accompanying statements present fairly the financial position of St. Luke's Hospital as of December 31, 1953, and the results of its operations for the year then ended, and were prepared in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

ARTHUR ANDERSEN & CO.

Chicago, Illinois,  
March 19, 1954.

# Balance Sheet—ST. LUKE'S

## ASSETS

### OPERATING FUND:

Cash .....	\$ 186,574
